## POINTS OF SINGLE CONTACT

Easy completion of formalities for service providers

European Commission > Internal Market > Services Directive > Points of single contact

**Get the information you need and complete your formalities online**

Do you want to explore new business opportunities or to expand your business in another EU country? Are you planning to set-up a new business at home? Then the "Points of Single Contact"(PSCs) are for you.

**PSCs are online e-government portals that allow you to »**

- Find out about the rules, regulations and formalities that apply to service activities
- Complete the administrative procedures online (by submitting the necessary application forms and supporting documents etc. electronically)

You no longer have to go to the individual offices of different authorities in different countries, one by one. In each EU country, applications can now be dealt with online through one single access point, the PSC.

**The PSCs are there to help you deal with a wide range of practical issues »**

- Which licences, notifications or permits do I need to start a business in any EU country?
- What do I need to do when I want to offer my services abroad on a temporary basis?
- How do I apply for a licence? Which organisation is responsible for dealing with my application?

Technical Committee CEN/CLC/TC 4

„Project Committee -  
Services for fire safety and security systems“,

SN/K 347 Brann- og sikkerhetstjenester

# TC4 – Tjenestedirektivet sikkerhetssystemer

## 1 Scope

This European Standard specifies the minimum requirements for service providers as well as the competencies, knowledge and skills of their involved staff charged with the planning, design, installation, commissioning, verification, handover or maintenance of fire safety systems and/or security systems, regardless whether these services are provided on-site or remotely.

This European Standard is applicable to services for:

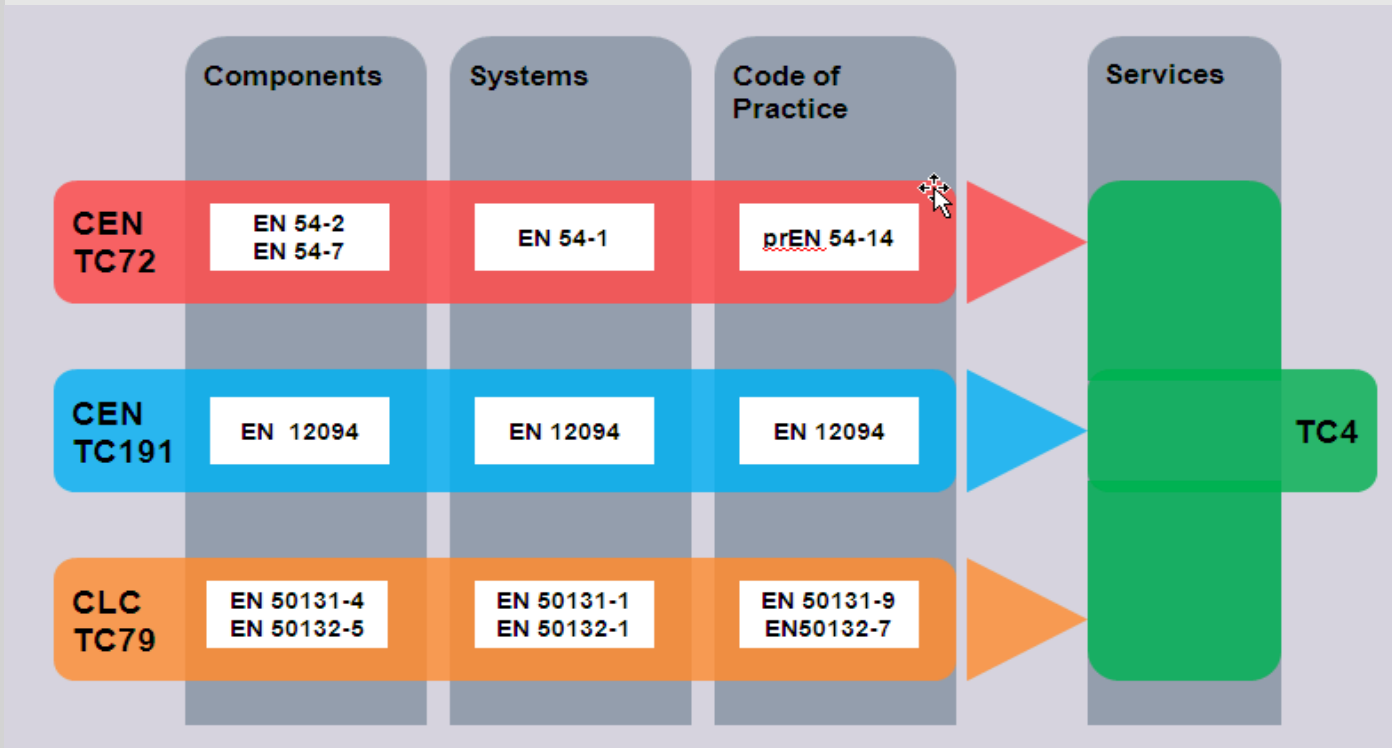

- a) fire safety systems including, but not limited to, fire detection and fire alarm systems, fixed firefighting systems and smoke and heat control systems;
- b) security systems including, but not limited to, intruder and hold-up alarm systems, access control systems, external perimeter security systems and video surveillance systems;
- c) a combination of such systems including those parts of an alarm transmission system for which the service provider has contractually accepted responsibility.

Social alarm systems and alarm receiving centres are not included.

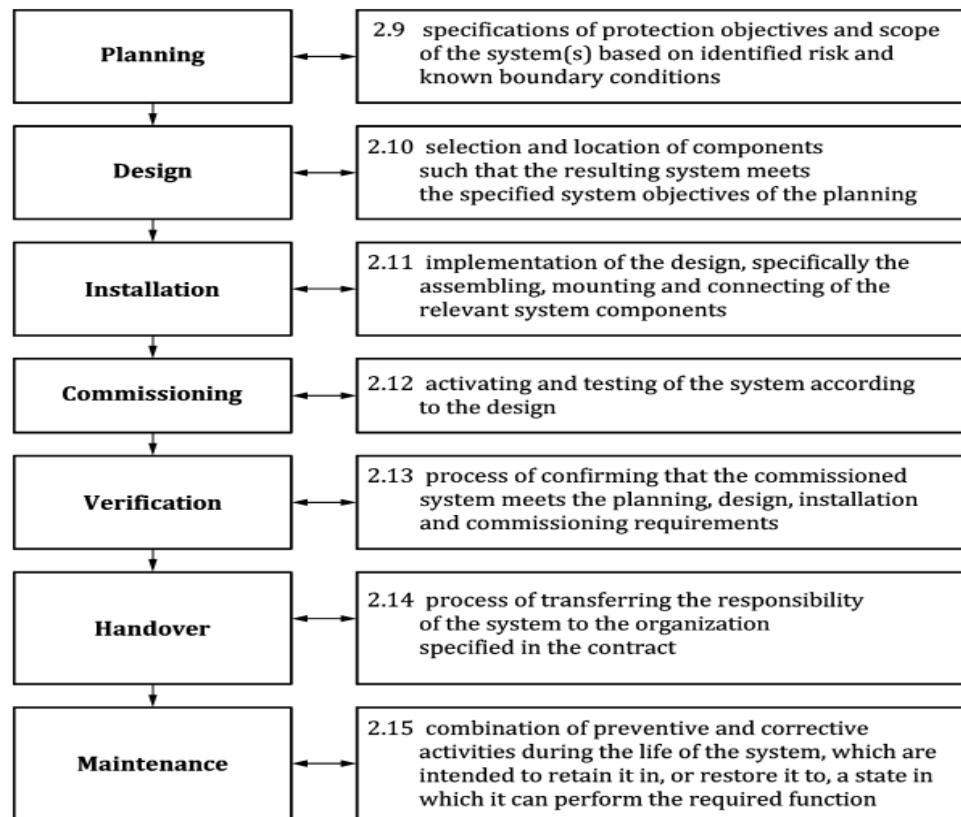

This European Standard is applicable regardless of project size.

This European Standard is applicable regardless of the service provider's organizational structure and size.

This draft European Standard is submitted to CEN members for formal vote. It has been drawn up by the Technical Committee CEN/CLC/TC 4.

If this draft becomes a European Standard, CEN and CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN and CENELEC in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN and CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN and CENELEC members are the national standards bodies and national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

**Warning:** This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

Development for technical changes

This draft European Standard is submitted to CEN members for formal vote. It has been drawn up by the Technical Committee SC4/20/20 4.

It has been prepared by Technical Group CEN and CENELEC, working in parallel with the CEN/CENELEC Technical Working Group on Services for fire safety systems and security systems (CEN/CENELEC Technical Working Group on Services).

This draft European Standard was established by CEN and CENELEC in order to provide common European Standards in English and drafted in the CEN/CENELEC Management Centre in the official language of the CEN/CENELEC member states.

CEN and CENELEC maintain all rights reserved under the copyright law of their respective countries. All rights reserved. No part of this draft European Standard may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopying and recording, or by any information storage or retrieval system, without permission in writing from the CEN/CENELEC member states.

Approval of this draft was subject to certain conditions, verification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning: This document is not a European Standard. It is distributed for comment and discussion. It is subject to change without notice and shall only be referred to as a European Standard.
