

## Fire Sprinkler International is back – and in London

[firesprinklerinternational.com](https://firesprinklerinternational.com)

In partnership with the British Automatic Fire Sprinkler Association (BAFSA), the European Fire Sprinkler Network (EFSN) will host Fire Sprinkler International 2022 - a two-day conference at the Park Plaza London Riverbank on 31<sup>st</sup> May and 1<sup>st</sup> June 2022 providing an unmatched forum for knowledge and understanding of the sprinkler industry.

After 2 years of travel restrictions, commercial restraints and limited opportunities to network and interact personally the international sprinkler industry will descend on London and celebrate new horizons post COVID crises, forging new professional relationships, renewing old contacts and creating new business opportunities to increase growth and future resilience.

An intense and informative programme will be delivered by more than 50 speakers with plenary and parallel break-out sessions from dawn to dusk in the hi tech and spacious surroundings of the Plaza suite. The outstanding 2-day conference programme addresses the latest developments in regulatory requirements, standards and technology for water-based fire suppression systems as well as specific applications including heritage, warehousing and logistics, residential applications, alternative power, high rise buildings and transport.

FSI 2022 will be held in one of London's best situated hotels.... Located just west of the Houses of Parliament and Lambeth Palace, the venue is the perfect backdrop for this international gathering of sprinkler experts and fire safety professionals.

Alongside the dynamic conference programme will be an unrivalled exhibition of products and services from sprinkler companies across the world giving delegates and participants the opportunity to discuss specific topics; review innovation and network with the industry throughout the day and at the evening reception.

Two day inclusive delegate passes are on special offer until the end of April
